

Lexar memory card SDHC 32GB Pro 2000X UHS-II U3 V90 + card reader (Product code: WNC-8125)

Price: 104.99 €

Description:

Lexar® Professional 2000x SDHC®/SDXC® UHS-II cards let you quickly capture and transfer high-quality photos and 1080p full-HD, 3D, and 4K video, with a read transfer speed up to 2000x (300MB/s).* The cards leverage UHS-II technology (UHS Speed Class 3 (U3)) for high-speed performance. This dramatically accelerates workflow from start to finish, so you can save time and get back to the business of photography. High-speed performance you can trust

Whether you're a professional photographer, videographer, or enthusiast, the card provides performance you can trust. This high-speed card leverages UHS-II technology (UHS Speed Class 3 (U3)) and provides a read transfer speed up to 2000x (300 MB/s) when used with the included SD UHS-II reader. For versatility, the cards also work with UHS-I devices at UHS-I speeds, and they're backwards compatible with older cameras and readers, performing at Class 10 speeds when used with non-UHS devices.

Quickly transfer files with included SD UHS-II reader, dramatically accelerating workflow

The Lexar Professional 2000x SDHC/SDXC UHS-II cards come with an SD UHS-II reader for high-speed transfer of files. This dramatically accelerates your workflow from start to finish, getting you back behind the camera faster. Shoot high-quality images and 1080p full-HD, 3D, and 4K video

Whether you're using a DSLR, HD camcorder, or 3D camera, you'll be able to leverage the latest features available for shooting high-quality images and stunning 1080p full-HD, 3D, and 4K video.

Recover files with Image Rescue® software

The card includes the latest version of Image Rescue® software, which recovers most photo and select video files, even if they've been erased or the card has been corrupted. The software is available for free download with purchase of the card.

Warranty and support

All Lexar Professional line memory cards come with a limited lifetime warranty and are backed by expert technical support.

Outstanding compatibility

The Lexar team works with major camera manufacturers to ensure cards are compatible with their digital cameras—from the simplest to the most complex.

Rigorously tested

All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.
